- Miscellaneous tools: Visual Studio Code, IntelliJ, Eclipse, Android Studio, Appium Inspector, Postman, JIRA, Bitbucket, Github, Jenkins and Bitrise.

Soft Skills:

Collaborative, organised, committed, sociable, fast learner and always striving for self-improvement. I perform my best when I am part of a supportive and motivated team where I can contribute to a common goal.

Hobbies

I am passionate about travelling, which led me to move abroad and explore several countries in the EU and South America, while working in the hospitality industry between April 2018 and May 2019.
Another passion of mine is cooking, and for this reason I took a 2-year course in "Patagonica" Culinary school, where I graduated as a Professional Cook in 2011.
In my free time I enjoy watching and reading content about language learning and playing the guitar. Currently, I am taking private guitar lessons with a small group of music enthusiasts, as well as an online Dutch course.
I also love cycling, and my new goal is to learn more about bicycle maintenance and to be able to do all necessary repairs on my own.
